

Teaching KnowledgeTest (TKT)

Course and Examination Information

Courses

There is a separate course for each of the three TKT modules. Each module is self-contained, so there is no obligation to complete more than one. If students intend to study for more than one module, study need not be continuous, i.e. they may enrol for modules 2 and 3 in subsequent years and the result for the Module 1 exam will still be valid.

Students may also sit the exam for any module without attending a course, if they prefer to study alone. The price of the course includes the cost of enrolling for the exam. Students enrolling for the exam without a course pay a different fee (see below).

The course for each module lasts 12 hours. There are two components: 8 hours classroom teaching and 4 hours online. The classroom time is divided into four weekly two-hour lessons. The classroom and online components run concurrently, with the classroom teacher setting a one-hour online session to be completed by the following week's lesson. This is summarised in the table below:

Component	Duration	No. of sessions	Length of sessions	Total tuition time
Classroom	8 hours	4	2 hours	12 hours
Online	4 hours	4	1 hour	

Each module will have a course in three different centres, subject to a sufficient number of enrolments. The final exam for each module will be held at one centre and scheduled for soon after the completion of the course.
